A Two Column Layout Fixture

Edsger Dijkstra[1], Leslie Lamport[1]
[1]Centrum Wiskunde & Informatica

Abstract

The abstract is set across the full width of the page, while the body below it runs in two independent columns.

1 Introduction

The left column begins the introduction and continues below this line with further prose about the fixture. Each column is a vertical run of text that shares its baseline with the other one.

The left column begins the introduction and continues below this line with further prose about the fixture. Each column is a vertical run of text that shares its baseline with the other one.
